

**Maritime Engineers** PTY LTD  
*A Member of James Fisher and Sons plc*

## QUALITY POLICY

Maritime Engineers Pty Ltd is an Australian based company, providing marine survey and engineering services to the Australian and overseas maritime industry. Our international service capacity is strengthened by our offices in Singapore and Japan.

### MISSION STATEMENT

It is our mission to *provide comprehensive consultancy services throughout the maritime industry within Australia and internationally*. We commit to continually monitoring and improving our services in order that we respond to the requirements of the changing industry within which we work.

We commit to employing staff with a wide range of skills and competencies and seek to enhance their capabilities, in turn providing continually higher levels of service to our clients.

We strive to uphold the values of our profession, to provide a high level of service and to compete honestly and ethically with our competitors.

### VISION

*Our objective is to become the company of choice for clients requiring the highest quality, professional marine surveying and consultancy services.*
